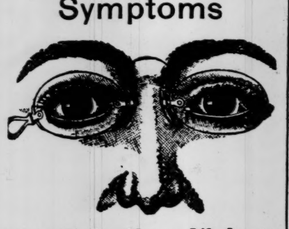
Symptoms



Of Defective Vision

Many persons have the idea that defective vision manifests itself only in a failure or inability to see clearly, but itching, burning, smarting of the lids, dull pains in the eyes or head, even the back of the head, all come from irregularities in the optical construction of the eyes and may be entirely relieved by correctly fitted glasses.

DR. J. T. JOHNSON Guarantees to correct every case that he undertakes. If your eyes are giving annoyance consult him at once.

FOR THE GREAT WORK'S SAKE.

Supt. Mebane Writes to Members of Boards of Education.

The following is a circular letter from Hon. C. H. Mebane, superintendent of public instruction, addressed to the members of the County Boards of Education:

Gentlemen;—I write this letter because the question has arisen in some counties as to whether the legislature had authority to abolish the County Boards of Education as the members were elected for three years.

I shall not attempt to decide as to the legality of this act of the legislature, but want to inform you that it is my earnest desire that you waive any legal right that you may feel that you have in this matter for the sake of the cause of public education.

The work of public education in North Carolina is bigger than any set of politicians or any political party. So I beg you for the sake of the great work to be done, not to throw any obstacles in the way that may in any way hinder the success of the law as enacted by the recent legislature

It was reported to me that the principal qualification considered in the appointment of the County Board of Directors was that the men must be democrats. Be this as it may. Let these men have an opportunity to prove by their works that they are for public schools as well as democrats.

I advise you to meet with the County Board of Directors on second Monday in April, make a full, complete report of your work since July 1, 1898, and turn over all official records, books, ets., to the County Board of Directors in order that said Board of Directors may have as little trouble as possible to make out the annual report for the fiscal school year ending June 30, 1899.

There has been the most pleasant official relations existing between you and myself, with very few exceptions, the memory of the exceptions will be forgotten, and that of the general rule will be cherished in the years to come.

I am, yours truly,
C. H. Mebane,
Supt. Pub. Inst.

No Transfer of Freight Here.

The Southern is completely snubbing Greensboro so far as the transfer of freight is concerned. The transfer business heretofore done here will be moved to Salisbury and the freight heretofore delivered to the Atlantic & Yadkin to transport to Walnut Cove will, in the future, be carried to Winston and delivered by the Southern to the Norfolk & Western. This takes a great deal of freight away from Greensboro as the Southern has been doing a large transfer business at this place.

Brown Making Room for Furniture.

The Sample Brown Mercantile Company are having the second floor of their store building fitted up preparatory to opening their furniture department. The stock of furniture recently purchased by them from Workman Brothers will be made a part of their store as soon as work on the new department can be completed and after that, we are informed, they will carry a full line of fine furniture. Success to them.

The Stock Exchange and David Wise were lost in the shuffle. Manager Bergin moved the Exchange just across the hall and Mr. Wise goes upstairs over Fishblate-Klatz Company's store.

Shooting Peas on the Sidewalk.

A game called "peas," played with small marbles, is all the rage among the small boys of the city now and they are about to run it in the ground. Almost every small boy in the city carries a pocket full of these "peas" and they meet on the street to shoot to win or lose. They have almost taken, without the consent of the walking public, the sidewalks of South Greensboro. Officer Jordan went out that way yesterday to frighten the boys away and he did. When they saw him coming they scattered like partridges. We are asked to advise the boys to keep off the sidewalks.

They Should.

So the New England newspapers will not visit Rynchburg, Virginia, it seems That city did not care to advertise in the syndicate at the rate of $950 a printed page, and the syndicate did not care to do Lynchburg at a less price. But nobody appears to be hurt so far, and if the parties have mutually determined not to be benefited, the rest of the country should be satisfied.—Asheville Citizen.

Pupils' Recital.

The pupils of Prof. Clarance R. Brown were given a recital last night at his residence on West Washington street. Each selection was well rendered, and was greatly injoyed by the large number of friends present. The manner in which the pupils rendered their respective parts is conclusive evidence that Prof. Brown is an instructor of rare ability.

Secret service agents have arrested ten counterfeiters in Boston, Mass., who have been turning out enormous quantities of spurious coin.

STILL PUSHING THE FIGHT.

The Climax May Occur at Any Hour.

CONDITIONS AROUND MANILA.

Washington Officials Said to Be Well Pleased—Indications That Hostilities Will Soon Cease.

By Cable to the TELEGRAM.

Manila, March 17--Gen. Wheaton is still further pushing his eastward column and is now advancing northeast to Laguna Bay. After the capture of two towns yesterday the enemy retreated undaunted to their entrenchments northeast of Pasig and are now waiting the further advance of our troops. The Filipino losses cannot be learned, but are known to be heavy.

LOOKING FOR THE CLIMAX.

Washington, March 17.—Advices have been received from Manila, which indicate that the climax may occur at any hour. The officials here are very well pleased at the condition of affairs, but will not at present discuss the details of dispatches. The indications are that hostilities will end in a very short time. The president has been notified

GUNS FOR OTIS.

Washington, March 17—The war department has ordered sent to General Otis three light batteries and a half dozen Hotchkiss guns for use as mountain batteries. General Otis cabled last evening that seventy-two horses should accompany the batteries. These batteries are needed where it is impossible to move the heavier artillery now in the Philippines.

General Lawton has been assigned to command the first division of the Eighth army corps, succeeding Gen. Anderson, who has been ordered back to the United States to take command of the military department.

Company G, of the Washington regiment, captured 150 additional prisoners this morning near Taging. They also seized some ammunition. Most of the Filipino arms were hidden or thrown into the river. Engineers have thrown a temporary bridge acro s the Pasig river for the artillery and commissary trains. The Twentieth will return from the front.

Minstrel Postponed.

Special to THE TELEGRAM.

Guilford College, March 17—The minstrel show, which was to have been given at Guilford College on the night of the 18th inst., has been postponed a week and will be given on Saturday night, March 25th, at 7:30 p. m. The entertainment promises to be a great success and is given for the benefit of the athletic association. After the performance there will be a social and refreshments will be served. Public cordially invited.

A Floating Island.

By Wire to THE TELEGRAM.

Havana, Ill., March 17—A floating island of one or two acres extent and four or five feet thick, has come down the Illinois river and crashed against a cabin boat, smashed its keel and landed it ashore. It next struck the pier of a wagon bridge shaking it violently and throwing horses that were on the bridge. It then stranded between the pier and the shore. The city authorities contemplate dynamiting it.

Train Jumps The Track.

By Wire to THE TELEGRAM.

Vollande, Kans., March 17—The east bound passenger train jumped the track on the Rock Island road near here today, throwing the baggage car and smoker down a bank, leaving the chair car partly tipped over. The cars caught fire and the combination car, two coaches and the chair car were destroyed. Twenty-six passengers were injured, two of them seriously, and Baggageman Freeman was killed.

Market Excitement.

By Wire to THE TELEGRAM.

New York, March 17—Sugar was again a spectacular feature of early trading on Wall street today. Brokers were climbing over each other to fill orders. The fluctuations were sudden, sharp, upward and downward. Thirty thousand shares were dealt in the first fifteen minutes. The advance was six and a half.

Death is Near.

By Cable to THE TELEGRAM.

Rome, March 17—Alarming reports are being received from the Vatican as to the Pope's condition, and it is said that death is near. He is rapidly growing weaker, losing his good spirits, becoming nervous and morose, showing impatience at the restraint.

New London Gets the Race.

By Wire to THE TELEGRAM.

New Haven, Ct., March 17—It has been definitely decided to hold the Yale-Harvard race at New London. The bids of Worcester and other towns were unconsidered.

The contract for the brick to build the bank and drug store building in Thomasville was let yesterday to A. W. Council, of this place.

The entertainment given in the Methodist church last night by the Epworth League was a complete success throughout the entire program. Prof. Crowell deserves much credit for managing the young people so nicely.

Mrs. J. M. Walker will leave tomorrow for her new home in Basic City, Va., where Mr. Walker is secretary and treasurer of a furniture company.

Mr. A. B. Horney, who is contemplating putting in some new machinery at the roller mill here, went to Greenville, S. C., last night to look at the machinery in the mill there. If it suits him he will put in some of the same.

Sheriff T. S. F. Dorsett, of Davidson county, returned to Lexington last night.

W. H. Ragan returned last evening from Greensboro where he spent yesterday on business.

F. M. Pickett left this morning on the belated train for Winston.

Miss Sarah Welch was called to Jamestown this morning on account of the serious illness of her mother.

Mrs. W. W. Rose, of Gilead, returned home this morning after spending a few days with the Mrs. Geo. A. Matton.

The most exciting time in town today was the loading of a car of lumber, belonging to Frank Rush, of Asheboro.

Prof. F. S. Blair, of Guilford College, was in town today.

Rev. B. W. Spillman, of Raleigh, was in town a short while this morning.

Mrs. H. S. Scott, of Mebane, arrived in the city this morning to see Mrs. A. J. Rickel, who is very ill.

A. E. Burns, of Asheboro, stopped at Jarrell's Hotel last night.

A Heavy Weight.

Mr. W. R. Pleasants has the contract for moving the new boiler for Messrs. Wharton & McAlister's new building on East Market street. The boiler weighs about sixteen thousand pounds, Mr. Pleasants says. It is now on South Davie street about two hundred yards from the railroad where it was unloaded and is being moved on rollers. It is a big job to move it and it will take strong motive power to get it up the grade by the market house.

UNCLE SAM'S COAL OUTPUT

Is Now Five Times Greater Than It Was In 1870.

EXPORTS FOUR MILLION TONS.

Fifty-Nine Clerks Discharged From War Department and Large Number Transferred—Personals.

Special to the Telegram.

Washington, March 17—According to the bureau of statistics, treasury department, in an interesting statement just made public, both the area of coal production and quantity of coal produced have increased gr atly in the United States within the past few years. In 1870 the number of states in which coal was produced was but twenty, while in 1897 the number was thirty-two. In 1870 the production of anthracite coal was reported only from Pennsylvania, while the census of 1890 reports production in Pennsylvania, Rhode Island and Virginia, and more reports show a production of anthracite coal in Colorado and New Mexico. In the southern states the increase has been especially rapid. Alabama in 1870 mined but 1',000 tons of coal, and in 1897, 5,262,000 tons. Kentucky, which in 1870 mined but 150,000 tons of coal, produced in 1897, 3,216,000. Tennessee increased her output from 133,000 tons in 1870 to 2,500,000 tons in 1897, and Virginia, which produced but 62,000 tons in 1870 produced 1,383,000 tons in 1897.

No other country shows such rapid increase in coal production as does the United States. From the bulletin just issued it appears that the coal production of the United States is now nearly five times as much as in [illegible] The exportation has in that [illegible] increased from a quarter of a million tons to over four million tons, and the United States, which, in 1870, supplied but 17 per cent. of the world's output, now furnishes about 25 per cent.

In the wholesale change in the clerical force at the war department Wednesday, in which fifty-nine clerks were discharged, and a large number transferred, or reduced in salary, on account of the well known policy of the executive departments not to make public the names in such cases, of those affected, it was not possible to learn definitely whether any of the North Carolina clerks were reduced or transferred. It is stated, however, that none of the clerks from the state were removed.

The president's failure to reappoint Judge Ewart before leaving for the south has left some doubt in the minds of many as to whether Ewart will be reappointed. By the failure of the senate to confirm him, his salary as judge ceased on the fourth of March. Representative Pearson, who has been here since congress adjourned, says that he does not think there is any doubt but the judge will be reappointed upon President McKinley's return to Washington, and it is claimed that he has already made a promise to Judge Ewart's supporters to this effect. Judge Ewart has left Washington, and returned to his home in North Carolina.

E. W. Lyon, who is well known in Greensboro, is in the city on a business trip. While in Washington he is stopping at the St. James Hotel.

Norfolk and Richmond, Virginia, are striving for the honor of having the mustering out of the Fourth Virginia Regiment. This regiment in common with other volunteer regiments now in Cuba will be mustered out some time between now and the 15th of April. It is thought that the war department will not consider the question of locality where the mustering out is to take place for quite a little time. There is talk that both cities may send delegations to place the matter before the secretary of war.

The Philadelphia base ball team passed through Washington Wednesday afternoon en route to Charlotte, North Carolina. They did not remain over here excepting for a short time, long enough to make the proper railroad connections.

A. Hewlett, of Charlotte, N. C., is at the St. James Hotel. He is accompanied by Miss M. Hewlett.

William H. Cooper has been commissioned postmaster at Laurinburg, North Carolina.

Bachelor Girls Entertainment.

Miss Julia Settle entertained the Bachelor Girls and friends most delightfully at the residence of her sister Mrs. S. H. Boyd, on East Lee street, last evening. After cards refreshments were served. The score cards were were works of art. Mrs. Hinkle received the first prize, a silver blotter. Miss Byers received the booby a harmonica. Those present were:

Pearl Balsley and Mr. Powe.
Lizzie Balsley and Mr. Taylor.
Alice Small and Mr. Tate.
Mabel Kase and Mr. Douglas.
Mrs. Hinkle.
Miss Byers and Mr. F. Cone.
Lottie Peyton and Mr. Fariss.
Sue Reese and C. Cone.
Ruth Porter and G. Mebane.
Mr. Berger, Mr. Scott.

Judging from the list it is hardly probable that such an attractive club will be allowed to continue unchanged.

General Disgust at Santiago.

Santiago, March 15—All classes here are utterly disgusted over the present situation. Americans contend that Cubans are wholly unfit for self-government, while Cubans contend that General Brooke's administration is wholly a failure. Ten thousand Cubans held a mass meeting last night, denounced the assembly and upheld Gomez.

SUPERINTENDENT MEBANE.

Elsewhere we print a letter from Hon. C. H. Mebane, superintendent of public instruction, addressed to the members of the county boards of education, which puts patriotism above party, and the great cause of education above personal rights and inclinations. For this letter, as for innumerable public acts and expressions, Mr. Mebane is entitled to the highest commendation. The cause of education in North Carolina is under the direction of a man who carries it next to his heart.

Since the above paragraph was written and put in type we have read an editorial in this morning's Charlotte Observer, along the same lines, paying a high and deserved compliment to Superintendent Mebane. The Observer not only commends him for his able administration of the important office he holds, but closes with a suggestion looking to the future, as follows:

The democratic party held out the olive branch to the populists and white republicans last year and promised them not to be proscriptive if it were given power. It would be well enough for it to give some definite proof of its sincerity in declaring its willingness to let by-gones be by-gones. Mr. Mebane is a populist—but he has not carried politics into his office or into the discharge of his official duties. He has been an exceedingly diligent official; an intelligent and capable one Why should not the democratic party next year nominate him for the position he now holds? This would be an olive branch, indeed, to the populists; it would be good politics and it would be right. It would prove the democratic party to be a party of forgiveness and of breadth and its influence upon the political atmosphere of the state would be wholesome.

To carry out the Observer's suggestion would be but a just recognition of the efficient services of a really able and capable man. He has placed the office he holds and the great work entrusted to him far above partisanship and thrown around it dignity in a degree it has not heretofore enjoyed. With the record he has made, and believing he will pursue the same policy to the end, the Telegram heartily endorses the suggestion that he succeed himself as state superintendent of public instruction. The important question of education is one that should not be tossed about on the uncertain sea of political changes.

THE WILL OF THE PEOPLE.

Is this a government of, by and for the people? Has a legislature, elected by the people, a right to make laws and regulations and perform other acts for the government of the people? Isn't that primarily the object of the legislature in coming together, with authority vested in them by the people? There is too great a tendency, these times, to go behind the acts of the legislature to defeat the aims of legislation and to declare null and void certain provisions when it does not suit the convenience of some man or set of men for such provisions to be enforced.

That is the spirit that breeds revolt, anarchy and revolution. In this government of ours, we have been taught, the will of the people is supreme. When they speak they must be respected. They will be respected. They elect the members of the legislature who are invested, under the constitution, with power to make, alter or amend laws. In this day of corruption in legal proceedings (and who will say that fraud and corruption does hot sometimes defeat the ends of justice) people talk a great deal of the constitutionality or unconstitutionality of certain laws or clauses of laws and go into court to prove their opinions.

Especially is this thing becoming alarmingly prevalent in the contest for office, where the legislature is vested with the elective or appointing power. It means a harvest, rich and abundant, for the lawyers; but it is undermining the principles and sapping the life-blood of our boasted government—"of, by and for the people."

In this connection we notice: The legislature just closed made a contract with Edwards & Broughton, and E. M. Uzzell, of Raleigh, to do the state printing. The fusion printers, Barnes Bros., or the Capital Printing Co., were offered the contract, their bid being the lowest, but owing to some restrictions or provisions, which, we take it, the legislative committee had the right to impose, Mr. Barnes refused to sign the contract. The printing, thereupon, was let to the two firms first mentioned.

And now the music is on with Barnes at the crank. Suit has been instituted to prove that the Capital Printing Company is still entitled to the work. Summonses have been issued for all members of the legislative committee to appear in Raleigh before Judge Brown on March 30. Edwards & Broughton and Uzzell, along with Secretary of State Thompson, have also been summoned. There is also a contest between J. L. Burns, Keeper of the capitol, and the newly elected Keeper, C. C. Cherry. Dr. Burns declines to surrender the possession of the office, totally ignoring the will of the legislature, and suit has been instituted, with a strong array of counsel on both sides.

And the whole thing is out of order and out of sense and reason and out of keeping with our form of government. The sentiment expressed by Hon. Chas. H. Mebane, in a letter published elsewhere, should be the sentiment of all people who propose to make even a show of loyalty to the will of the people and the law-making power.

The Telegram acknowledges with thanks the receipt of an invitation from the faculty and students of Trinity College to attend the "Avera Bible Lectures," to be delivered by Bishop Warren A. Chandler, on March 28, 29 and 30, in Main street church, Durham. These lectures will be a rare intellectual treat and many people will avail themselves of the opportunity of hearing the talented Bishop.

The presence of Mr. McKinley in Georgia did not seem to check the determination of the mob who went after the nine negroes in jail at Palmetto for arson. Neither presidents, sheriffs, guards, jails, locks or iron bars stand in the way of those people when their blood is hot, though such lawless outbreaks are always deplorable.

It is said that nature abhors a vacuum, but she went back on herself when she made the place where the brains of a man ought to be who insists upon crossing the track just as the train runs into the station.

Rev. E. Edwards, pastor of the English Baptist Church at Minersville, Pa., when suffering with rheumatism, was advised to try Chamberlain's Pain Balm. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by C. E. Holton.

Beats The Klonkike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemmorhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottle free at C. E. Holton's drug store. Regular size 50 cts. and $1.00. Guaranteed to cure or price refunded.

The One He Missed.

"I was elected by the votes of eight different nationalities," declared an east side alderman as he tucked his thumbs in the armholes of his vest and struck an attitude.

"That so? What were they?"

"Irish, German, Polish, English, Italian, French and Greek."

"That's only seven."

"What the deuce was the other now? There were eight sure."

"Americans," suggested a reporter.

"That's it. Couldn't think of them to save me."—Detroit Free Press.

Poor Business.

An old gravedigger who lived in a village at the foot of the Grampians was one day complaining about the dullness of times.

"Man, John, is trade that bad wi' ye?" said a sympathizing neighbor.

"Bad!" returned John, bringing his staff down with an impatient gesture. "I havena buried a leevin sowl this sax weeks."

During the middle ages, when the aristocracy of Florence and Venice was so tyrannous to its dependents, murder was considered as a small crime and poisoning was so skillfully effected that many people lived almost entirely on boiled eggs.

In the river Llano, in Texas, islands of floating sand are sometimes seen.

Purifying the Air.

It is found in many factories that the hands do much more work in a given time if they have good air to breathe. Some firms have quite elaborate provisions for the purifying of the atmosphere of the workrooms.

In the absence of these a simple plan is to put a spoonful of oil of turpentine into a liter bottle of well water, shake it well, and then blow it about the room through an atomizer. An improvement is to mix a few drops of acetate ether with the turpentine.—St. Louis Republic.

Thou-ing.

To persons of lesser rank one saith "You," without thou-ing anybody, be it not some little child, and that thou wert much more aged and that the custome itself amongst the meer courteous and better bred were to speak in such manner. What concerneth familiar friends, amongst them the custome doth comport in certain places that they "Thou" one another more freely, in other places one's more reserved.—"Youths' Behavior," 1652.

Wasted.

"I didn't know you were so sarcastic when I married you."

"Did you not? Possibly you have forgotten I said, 'This is so sudden,' when you proposed after four years' courtship."—Collier's Weekly.

If two tuning forks of the same pitch are placed facing each other, the one sounding, the other silent, in a few seconds the one which was silent will be giving out a distinctly audible sound.

Always put off until tomorrow any evil you can do today.—Somerville Journal.

A

Single Standard

only is possible, whether as as a test of excellence in journalism, or for the measurement of quantities, time or values, and

The Philadelphia Record

after a career of nearly twenty years of uninterrupted growth is justified in claiming that the standard first established by its founders is the one true test of

A Perfect Newspaper

To publish ALL The News promptly and succinctly and in the most readable form, without elisian or pattisan bias; to discuss its significance with frankness, to keep An Open Eye for Public Abuses, to give besides a complete record of current thought, fancies and discoveries in all departments of human activity in its Daily Editions of from 10 to 14 pages, and to provide the whole for its patrons at the nominal price of One Cent—that was from the outset, and will continue to be the aim of "THE RECORD."

The Pioneer

one-cent morning newspaper in the United States, "The Record" still leads where others follow.

Witness the unrivaled average daily circulation, exceeding 180,000 copies, and an average exceeding 145,000 copies for its Sunday editions while imitations of its plan of publication in every important city of the country testify to the truth of the assertion that in the quantity and quality of its contents, and in the price at which it is sold "The Record" has established the standard by which excellence in journalism must be measured.

The Daily Edition

of "The Record" will be sent by mail to any address for $3.00 per year or 25 cents per month.

The Daily and Sunday

editions together, which will give its readers the best and freshest information of all that is going on in the world every day in the year, including holidays, will be sent for $4.00 a year or 35 cents per month.

Opening of the Social Season and Inauguration of the Magnificent

New York & Florida Limited Service

JANUARY 16, 1899.

The opening of the Florida season will be signalized this year as usual by the placing in service of the "New York and Florida Limited" between New York and St. Augustine, Fla. This is acknowledged to be the finest train in the world, in its appointments, luxury and detail of finish, and the first of these trains was constructed by the Pullman company for the use of the President of the United States on official tours.

"The New York and Florida Limited" leaves New York daily except Sunday at 11:50 a. m., via the pennsylvania Railroad, the Southern Railway, Florida Central & Peninsular R. R. and the Florida East Coast Railway, and reaches St. Augustine at 2.20 p. m. the following day, making the run, which exceeds 1,000 miles, in little more than twenty-four hours. No train has attracted so much attention, and its fame has been heralded wherever railroading is known. It is composed of Pullman compartment cars, each room being finished in different woods and supplied with private lavatory and toilet; Pullman drawing-room sleeping cars of the latest pattern and finish; a royal club car for the gentlemen; an observation car with a handsome drawing room at its rear opening on to a wide platform; a library car, and dining car, in which the service and the cuisine rank with the finest New York hotels. This "New York and Florida Limited" runs through solid to St. Augustine with the exception of one car which is detached at Columbia, S. C., and goes through to Aiken, which it reaches at 9:35 the next morning after leaving New York, and Augusta at 9:50. Brunswick and Jeckyl Island are conveniently reached by this train at 12 o'clock noon through the perfect connections afforded at Everett, Ga.

There are two other fine trains between New York ond Florida via "The Florida Short Line," one the "Washington and Southwestern Vestibule Limited," leaving New York at 4:20 p. m. daily, and the "United States Fast Mail," leaving New York at 12:05 midnight. The former train carries through Pullman drawing room sleeping cars between New York, Jacksonville and Tampa, and also offers Pullman sleeping car service between New York and Augusta, Ga., with connections for Aiken, Brunswick and Jekyl Island. The latter carries through drawing room sleeping cars between New York and Jacksonville, connecting with parlor car service to points on F. C. & P. R. R. and F. E. C. Ry. Dining cars are operated on all trains of the Southern Ry. "The Florida Short Line" in connection with the Florida East Coast Railway to Miami offers the most direct, quickest and delightful service to Nassau, Havana and Key West. For full information, reservations, etc., apply to J. L. Adams, G. E. A., F. C. & P. R. R., 353 Broadway, New York, or to A. S. Thweatt, E. P. A., Southern Ry, 271 Broadway, New York.

Copper Colored Splotches.

There is only one cure for Contagious Blood Poison—the disease which has completely baffled the doctors. They are totally unable to cure it, and direct their efforts toward bottling the poison up in the blood and concealing it from view. S. S. S. cures the disease positively and permanently by forcing out every trace of the taint.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke outinto sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do no good, I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved and was delighted with the result. The large red splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger, and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.

Glascock of the sixth ward, were appointed inspectors of election to be held on the first Monday in May, 1899, for the election of mayor and a board of aldermen.

This is to give notice that M. C. Workman, registrar, will attend from 7 a. m. till sunset at the M. P. Publishing House building on South Elm street, beginning on the 27th day of March and continuing to within ten days of said election, for the purpose of registering those who are entitled to register in the said city election.

By order of the board,
March 7, '99. John S. Michaux,
m8-10t. City Clerk.

No Smallpox.

While the City Fathers are talking smallpox and having the people vaccinated, the subject of all this talk is cutting wood for exercise.

While this is going on, the people are listening to that marvelous tune of Low Prices as sung by Harry & Belk Brothers. We are rushed to death opening new goods and have time for but a word. Listen:

One Cent Will buy—3 balls sewing cotton, one spool cotton, box tacks, pocket mirror, fine comb; paper pins, 12 safety pins, shaving brush, 2 pass books, 13 pins, 1 tablet, and hundreds of other things too numerous to mention.

Vaccination

is a preventive of smallpox, and a dollar a month is a preventive of getting your clothes dirty—for that is our business, to clean and press. We also make no exception to the ladies. We clean and press their skirts and waists at a figure that will astonish you, but one we will guarantee to give you good work. We dye Wednesday. Give us a trial and we will please you.

Positively

Curious

how funny folks do act—Some say they will and some say they won't. There is a great question to be decided by our North Carolina friends—"Smallpox vs. Vaccination"—pay the doctor and take your choice.

We have vaccinated against smallpox, now we are busy showing the most perfect line of correct-fitting Spring Garments that we could possibly secure.

These suits are strictly what they are claimed to be—every garment guaranteed.

Its our pleasnre to show this class of goods. Let us show you.

BRIEF LOCAL MATTERS.

Lindau advertises banquet wafers today.

See Kaufmann's 2-3-5-ad in today's paper.

H. G. Dewey, of Raleigh, was here today.

John D. Wiley, of Charlotte, is in the city.

Maj. Jas. D. Patton, of Richmond, is in the city.

Rev. J. M. Hilliard went to High Point today.

John L. Casper, of Winston, was here last evening.

Stock of groceries for sale at cost and storehouse for rent. See penny ad.

Dr. Henry F. Long, of Statesville, state inspector of smallpox, is in the city.

Miss Sankie Gilbert returned today from Archdale, where she visited Miss Deborch Tomlinson.

Rev. T. M. Johnson went to High Point today to assist in a temperance meeting there tonight.

There is a timely new ad in the lower left hand corner of this page. You know whose it is.

W. B. Farrar's Son has a new ad in today's Telegram. He talks of braces and belt buckles, first page.

City Tax Collector Rees has a notice in today's paper which is very important to all citizens. Read it.

S. Vance Scott, of Mebane, passed through the city today enroute to his home in Sanford to spend a few days.

St. Patrick's day—and Messrs. E. M. Caldcleugh & Brother have the thanks of a few of their many friends for Irish shamrocks presented today.

Fletcher H. Brooks is in the city on his way to Salisbury to visit his parents, Dr. and Mrs. John R. Brooks. He has been studying medicine in Baltimore.

Mr. T. T. Brooks, who has had pneumonia, has suffered a relapse, and is, we regret to learn, again critically ill at his home on Pearson street. His son, Frank, was telegraphed for yesterday and arrived on the afternoon train from Putnam.

Hudson-on-the-Hill has a tempting bill of fare in his space on this page today. If you don't see what you want in the bill, ask for it. Hudson is sure to have almost anything that could add to the enjoyment of a meal. If it's on the market Hudson has it.

E. M. Caldcleugh & Brother are daily receiving large shipments of crockery, glass and chinaware and kept busy opening it up and arranging it for display. Wednesday they received one of the largest shipments of glassware and lamps ever brought to Greensboro.

Madame Elrado, the palmist, is still at the Planters' Hotel. The knowledge she obtains by reading the lines of the hand surpasses the wonderful feats of hypnotism recently demonstrated by Santanelli and Lee in this city, though the two—palmistry and hypnotism—are on entirely different lines, of course.

Accident to Florida Special

The engine of No. 32, the northbound Florida Special, on the Southern, was disabled at Huntley, Va., this morning, blocking the track for about two hours. The train was running at good speed when one of the piston rods snapped in-two, though fortunately no one was hurt. Number 37, the southbound fast mail, and No. 11 the southbound local were delayed by the wreck.

Clymer is Climbing.

The Telegram is gratified to note the growth and increasing business of the Acme Mill Works. Manager L. M. Clymer tells us he has just sold a 25-barrel roller mill, with complete fixtures, and that since Christmas he has sold nine of his mill dressers. This is a case where Clymer is climbing in earnest.

Debate Tonight at A. & M. College.

There will be a public program rendered by the Eclectic Literary Society of the A. & M. College this evening. Dispensary versus Prohibition is the subject for debate. Public cordially invited. Exercise begins at 7:30 o'clock.

An Error in Price.

In the ad of Harry & Belk Brothers in this paper yesterday the printer made the price of percales read 3 cents instead of 5 cents. Customers will please take notice of this.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by C. E. Holton.

Having Trouble.

The way of the American Telephone and Telegraph Company seems to be stony. They were not allowed to bring their line to Greensboro and were forced to pass to the north of the city. And now they are having trouble with the railroads and the Western Union Telegraph Company. The Western Union and Southern authorities have cut the wires of the American company where they crossed the former companies wires near Jamestown.

Chamberlain's Cough Remedy

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by C. E. Holton.

MRS. HOUSEKEEPER:

Please permit us to ask you a very pointed question: Have you a Universal Food Chopper? By this we do not mean a meat grinder, but a Chopper, which takes the place of chopping bowl and beater.

It chops meat, of course, but it does more. You can chop ham, cocoanut, or bread instead of grating it. You can—but we can't tell it all here. Our booklet gives full information Free. You will have use for it every day in the year. It is very simple and very cheap. Please call and let us show it to you. Yours truly,
